A UTSA Music Marketing Program Product

ABOUT MESA MIX

Mesa Mix is a student-run organization, established by the students and faculty of the Music Marketing program at the University of Texas at San Antonio. This semester-long project is powered by the students in Dr. Stan Renard's Spring 2019 Music Marketing Seminar class.

Our mission is to unite generations through this unique piece of furniture. We hope to bring a little bit of joy, and nostalgia to your living room. All the proceeds will go towards student enrichment.

You could help a Music Marketing student receive additional financial assistance in the form of scholarships.

PRODUCT DIMENSIONS

Cassette coffee tables come in one standard size, pictured below.

The cassette table comes with two removable metal cup holders. The cup holders are dishwasher safe. It also includes a drop-down storage compartment.

CUSTOMIZE YOUR DESIGN!

Every table is made from wood, with removable metal cup holders, and a hinge-opening storage compartment. All supplies are purchased from a local retailer in the city of San Antonio. In order to provide the best quality product, we sketch every outline, carefully build and paint every table.

The standard table design includes one black base color, one generic stencil work, consisting of the colors red and yellow, and a final layer of shielding primer.

Customers may pre-order a customized design. Our team of artists will help you personalize your table by adding a logo, employing a unique palette of colors, or creating an intricate stencil design.

STANDARD PRICING

The standard pricing includes the essential table materials consisting of wood and hardware supplies. Plus the classic paint design.

We ask that payments be made in the form of checks. Please make checks out to UTSA with the memo Music Marketing.

\$250
